REMOVES impurities
and dead skin

SUPPORTS skin cell
RENEWAL

IMPROVES BLOOD SUPPLY
and oxygenation of the skin

STIMULATES
LYMPH FLOW

Material:
MICROFIBER MATERIAL

Body Cleaner is a body exfoliation glove that removes dirt, bacteria and dead skin from the skin surface.

Body Cleaner does not require the use of soap or any cleaning agents, just moisten it with water and gently massage the body. The glove can also be used dry. Body Cleaner is hypoallergenic and environmentally friendly because it does not pollute water or generate waste.

HELPS REDUCE stretch marks
and cellulite

EASY TO CARE FOR
– just rinse after use in water with added
soap with nanosilver, and wash from time to time
in concentrated washing liquid (concentrated
washing liquid with nanosilver)

DERMATOLOGICALLY
TESTED

A woman with brown hair tied back is sitting in a bathtub, holding a bright yellow peeling glove. The background is a wooden wall.

E F F E C T O F U S E

The body peeling glove is an ideal product for people who care about their health, beauty and ecology. The addition of nanosilver to the fibers provides the glove with high durability and effectiveness in skin care. Due to its durability and operation without the need for additional cleansing cosmetics, it is the best choice in terms of ecology and economy.

A close-up shot of water ripples on a light-colored surface, creating a pattern of concentric circles.

H O W T O U S E

Use dry or wet – as you like! Massage your body with gentle circular movements, focusing on areas that require special care, such as elbows, knees, thighs or buttocks. Avoid rubbing hard, so as not to irritate the epidermis.

On the dry body, apply a balm that matches the needs of your skin.
