

PINK FLOOR PAD

INDUSTRIAL

CONTAINS NANO-SILVER

DELAYS DUST AND DIRT DEPOSITION on cleaned surfaces, ensuring cleanliness for longer

FOR DRY CLEANING as a quiet dust vacuum cleaner

Does not require the use of **ANY CHEMICALS** for cleaning

Material:
MICROFIBER MATERIAL

Soft material for dry dust collection. Thanks to electrostatics, it attracts dust and does not allow it to float in the air or settle on cleaned surfaces. The addition of nanosilver to the fibers gives the pad properties that help maintain cleanliness. Due to its durability and chemical-free operation, it is the best choice in terms of ecology and economy.

EASY TO CARE FOR - just shake after use and wash occasionally in concentrated washing liquid (concentrated washing liquid with nanosilver), without the addition of softeners

RETAINS EFFECTIVENESS even after dozens of washes

EFFECTIVENESS CONFIRMED BY TESTS PERFORMED at the Environmental Research Laboratory in Wrocław EKOLABOS

HAS A CERTIFICATE of the national institute of public health PZH

M I C R O F I B E R S

Fibers with a diameter of 20 micrometers and a structure resembling human hair. This means that they have a groove into which dirt can penetrate, accumulate and not penetrate back to the cleaned surface. Additionally, silver nanoparticles that have been introduced into the fibers have properties that help maintain cleanliness and hygiene. The effectiveness of these cleaning agents is maintained even after dozens of washing cycles.

H O W T O U S E

For dry use. It is used together with the quick-fit head and the telescopic rod.

For dusting all flat surfaces: wood, terracotta, terrazzo, panels, carpets, ceramic, bamboo, resin, composite or concrete. Wall surfaces, cornices, ceiling beams and all other high surfaces. During washing, dirt is easily removed, leaving the fibers clean and ready for further use. As they are used, their structure is slightly damaged, which increases their ability to absorb dirt.
