

WITE GLOVE

For cleaning surfaces that tolerate
WET CLEANING

**DELAYS DUST AND DIRT
DEPOSITION** on cleaned surfaces,
ensuring cleanliness for longer

REMOVES DIRT
using only water

Does not require the use
of **ANY CHEMICALS**
for cleaning

Material:
MICROFIBER MATERIAL

With the help of the white floor pad for wet cleaning, you can remove even the most difficult dirt. Thanks to nanofibers with a special structure that absorb dirt and turn it into an emulsion, the cushion ensures perfect cleanliness of the surface after just one sweep, which significantly reduces the time needed for cleaning.

The white floor cushion is very efficient and ecological. It does not need to be rinsed during use, and a glass of water is enough to soak it. You do not need any cleaning agents - you use only water for cleaning.

EASY TO CARE FOR - just shake after use and wash occasionally in concentrated washing liquid (concentrated washing liquid with nanosilver), without the addition of softeners

RETAINS EFFECTIVENESS even after dozens of washes

**EFFECTIVENESS CONFIRMED
BY TESTS PERFORMED**
at the Environmental Research
Laboratory in Wrocław EKOLABOS

HAS A CERTIFICATE
of the national institute of public
health PZH

M I C R O F I B E R S

Fibers with a diameter of 20 micrometers and a structure resembling human hair. This means that there is a groove in them, into which dirt can penetrate, accumulate and not penetrate back to the cleaned surface.

During washing, dirt is easily removed, leaving the fibers clean and ready for further use. As they are used, their structure is slightly damaged, which increases the ability to absorb dirt. In addition, the material can even absorb unpleasant odors.

H O W T O U S E

For wet use.

It is used together with the quick-fit head and the telescopic rod.

It is used to wash all surfaces, large and small, which are not damaged by contact with water. It can be used to clean, for example, ceramic tiles, wall panels and to wash carpets and rugs. It breaks down dirt into an emulsion and is used for thorough cleaning of surfaces.

The cushion is suitable for washing non-wooden floors, glass surfaces and even panels and washable wallpapers. It is a practical product, thanks to which you will forget about uncomfortable mops that require the use of a bucket.
